## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

1. Claims 1-18 are allowed.
2. The following is a statement of reasons for allowance:

Applicant's claimed invention is deemed allowable over the prior art of record as the prior art fails to teach a thermal analyzer for predicting a temperature of an object to be heated, when a heating furnace heats said object based on predetermined heating conditions, said thermal analyzer comprising: an input unit, a view factor calculation unit, and a temperature calculation unit which calculates the temperature of said object, based on the heating conditions, the physical property of said object, the heating characteristics data of said heating furnace and the view factor. Additionally, a judgment unit which judges whether the temperature calculated by said temperature calculation unit satisfies the evaluation function, and when the heating conditions are changed by said judgment unit, said temperature calculation unit calculates the temperature of said object again, based on the changed heating conditions.

### **Conclusion**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
